mxHero **Mail2Cloud**
Attachment Security, Productivity & Cost Savings

Automatically replace email attachments with secure Box links. Intelligently set link security based on message content. Significantly reduce costs associated with email by moving attachments out of messages. Overcome attachment size restrictions. No end user software or actions required.

The mxHero Advantage

- No additional hardware or software required
- Works for all email systems & clients
- Works for emails sent & received
- No end user downloads or training
- API for integrating with external data sources

Product Spotlight

- Automatic security & governance of email content
- Intelligent auto-filing to Box based on scanned content
- Complete cloud-based service *(on-premises options)*
- Central control via web based Administration Panel

Seamlessly Replace Attachments w/ Links

MxHero's email gateway solution automatically replaces email attachments with Box links.
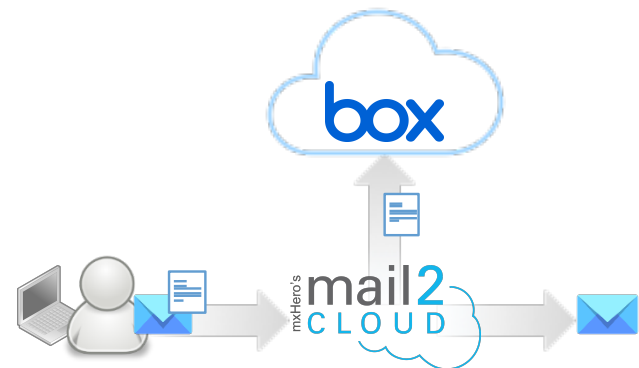

- Limit attachment substitution to specific users, email size, message or attachment content
- Works on messages sent and/or received
- Compatible with any device (mobile, desktop, etc.)
- Requires no client side software or end user action

Secure Attachments without user effort

Attachments sent by users are automatically delivered from secure Box links. Ideal for companies that need better email security but don't want to depend on user action.

Replace attachments with secure Box links based on sender, recipient, message or attachment content.

- Require authentication
- Allow "view only" (no file download)
- Set access timeout (ex. 7 days)
- Track attachment access

Message attachment intelligently moved to Box Delivered as secure link

Augment Productivity & Reduce Costs

- Reduce email storage by up to 90% by moving attachments to Box
- Reduce need of local software to view special file types (ex. CAD, AI, etc.) by leveraging Box file preview
- Extend Box's powerful content management features to email attachments
- Allow large emails without limiting end users

Detect sensitive content in message & attachments for automatic secure delivery

mxHero - Box Elite Partner of the Year 2016
